

MU FX samples plus Battery2 preset

MU FX It's a bit of a beat box if wanted or a cool start for glitch stuff. The samples are in rows of sound order, some are rhythmic (if wanted increase the cut off on those, they are fun to play)

To get an idea of what some of it sounds like you can download this short mp3

Some of the samples are in fact longer if needed (so if you want a glitch undertone, increase the cut off to the applicable samples)

I have included two presets, one for Battery 2 and another for Kontakt 2 called

mufx_spe3d.kt2 = Battery 2

mufx_spe3d.nki = Kontakt 2

To download the 24 Bit 44.1 kHz mono and stereo waves including the nki and kt2 presets, use this link
