

Drum and Cymbal Samples

Drum and Cymbal samples from two of the first kits I made (so if you have 'Spe3d' acoustic kits 1 & 2 you don't need to re-download these) – I have slightly trimmed them a bit more, but they are still full length 24 bit 44.1 kHz Stereo wave samples, I removed a couple of duff samples in the process.

In the rar you will find 8 folders each labeled as to what they contain.

BASS – 10 x Bass n Kick samples

CHINA – 1 x Hand Hammered china cymbal hit

CRASH – 17 x Crash hits

HAT – 16 Hat variations

SNARE – 13 Snare hits

SPLASH – 1 splash hit (see the zoned splash download for more variation on splash sounds)
